

LAB 10

Due	Sep 21 by 11:59pm	Points	10	Submitting	a file upload	Available	until Sep 21 at 11:59pm
------------	-------------------	---------------	----	-------------------	---------------	------------------	-------------------------

This assignment was locked Sep 21 at 11:59pm.

Given the following variable definitions:

1 num1: .word x

2 num2: .word y

Prompt the user to enter x and y from the keyboard. Do the conversions and store in num1 and num2. Load the two numbers from memory, compare them, and move the largest number into register r0.

Upload the source file and a gdb/gef screenshot showing memory values of x and y as well as the value of r0.
