

# LAB 14

---

**Due** Oct 7 by 11:59pm    **Points** 10    **Submitting** a file upload    **Available** until Oct 7 at 11:59pm

---

This assignment was locked Oct 7 at 11:59pm.

Write a program that:

1. Declare/Initial an array to hold 10 integers. Initialize to 0.
2. Execute a for loop to get 10 number's from the user and store them into the array.
3. Execute another for loop (must be different loop than #2) to sum the values of the array.
4. Execute another for loop to print the values to the terminal.
5. Display the sum to the terminal.

Upload your source.s and the output of your file as a screenshot.png.

Use the following numbers in your submission:

27    7    36    79    21    89    14    23    18    3
